Programming Experience

Web Development Immersive, General Assembly, Seattle, WA (2018–2019)

Just Smash Bricks - A breakout style game | HTML, CSS, JS

  - Leveraged the Kontra.js game library to create a smooth game without bloat
  - Created all game assets using JavaScript with TinyMusic and Html Canvas

hikr - Social media for finding hiking partners | Node.js, Socket.io, PostgreSql

  - Designed database schema that allows for dynamic user connections and chat
  - Created working MVP within 1 week while incorporating libraries learned just for this project

Syllaboard - Instructor dashboard for organizing assignments | Typescript, React, Redux, MongoDB

  - Lead team through creating a type specced React/Redux client
  - Contributed key features and bug fixes on Node.js Express server

Work History

Bicycle Technician, Kirkland Bicycle, Kirkland, WA (2013 - 2018)
  - Serviced bicycles of all types with very high customer satisfaction and low return rate
  - Improved service efficiency by creating service notes templates and custom build spreadsheets
  - Became the go-to consultant for customers interested in a custom bicycle

Customer Service Representative (Temp), Guidant Financial, Bellevue, WA (2012 - 2013)
  - Helped clients navigate a new web app and gave developers feedback on its usage
  - Exceeded all quotas which extended the temp position to months instead of weeks

Assistant Language Teacher, Borderlink Inc., Omiya, Saitama, Japan (2012)
  - Taught alongside teachers in a junior high school and was a resource for all things English
  - Created games and activities to help keep students engaged

Education

General Assembly, Seattle, WA (2018 - 2019)
Web Development Immersive

Seattle Pacific University, Seattle, WA (2008 - 2011)
Bachelor of Arts, Linguistics and Cultural Studies
  - Created pilot study on Kanji (Japanese writing) teaching methods
  - Studied abroad in Tokyo, Japan (Summer 2011)
